

SCCPL newly revamped website

On 26 January 2006, SCCPL launched their new revamped website. Previously managed by PSA IT team, SCCPL is now proud host to their own website. The migration took 3 months to complete. Another impetus for the change was to create a website with a new look and appeal, in tandem with SCCPL's increased vitality and connectivity to their customers and website users in general.

Viewers can now read SCCPL's latest press releases in the new page—the Press Room. Other new features include job openings under `Career' and the `Corporate Info' where the management team and the board of directors are listed. There is also more colours and visual impact in the new web pages—for more surprises and excitement—check it out at: <http://www.singaporecruise.com/main.aspx>
